1	¿What is <i>Forge</i> ?	2
2	¿What is <i>Wiki</i> ?	2
3	¿What is <i>Subversion (svn)</i> ?	2
4	¿What is <i>Ticket</i> ?	2

VERSION 0.1

1 ¿What is *Forge*?

A Forge is a website that provides diferents services that help in collaborative software development projects.

2 ¿What is *Wiki*?

A wiki is software that allows users to easily create, edit, and link pages together. Wikis are often used to create collaborative websites and to power community websites.

3 ¿What is *Subversion (svn)*?

Subversion (SVN) is a version control system initiated in 2000. It is used to maintain current and historical versions of files such as source code, web pages, and documentation. Its goal was to be a mostly-compatible successor to the widely used Concurrent Versions System.

4 ¿What is *Ticket*?

The Ticket system provides simple but effective tracking of issues and bugs within a project. As the central project management element, tickets are used for project tasks, feature requests, bug reports and software support issues.
